

CLOUD COMPUTING, ASSOCIATE IN APPLIED SCIENCE

College(s): TR, WR

Program Code: 0051

The Associate Applied Science degree in Cloud Computing is a comprehensive program designed to equip students with the skills and knowledge necessary to thrive in the dynamic field of cloud computing. Students will gain hands-on experience with the latest technologies and best practices in the industry, preparing them for a variety of roles in the rapidly evolving cloud computing landscape. This degree offers a combination of theoretical understanding and practical experience, covering key areas such as cloud administration, development, security, architecture, and data management. This program also serves as a foundation to further other academic pursuits or for career advancement in the field.

Pathway

This is an example course sequence for students interested in pursuing Cloud Computing. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC), and an Associate in Applied Science (AAS) in Cloud Computing.
