ELECTRICAL CONSTRUCTION TECHNOLOGY, ASSOCIATE IN APPLIED SCIENCE

College(s): DA
Program Code: 0752

The Associate in Applied Science degree program in Electrical Construction Technology is a cooperative effort between Richard J. Daley College and the Electrical Joint Apprenticeship and Training Trust (EJATT) which is made up of the National Electrical Contractors Association (NECA) and the International Brotherhood of Electrical Workers (IBEW) Local Union 134. Through the joint effort of the college and EJATT, the program is dedicated to consistently providing state-of-the-art education and training to apprentices, and through them to the residential and commercial building contractors in the Chicagoland area. This commitment to both the individual and industry requires not only providing electricians for today's market, but also looking toward tomorrow's market and future technologies.

At least one course must meet the Human Diversity (HD) requirement.

Applicants must meet the following requirements:

- Graduate of an accredited high school or have acceptable scores on the General Education Development (GED) test. Foreign and domestic high school education or domestic GED must be validated by official transcripts. Official transcripts will be accepted in place of the high school diploma if the graduation date is provided.

- At least 18 years old prior to application.

- Have taken two semesters of high school or college algebra and earned a minimum "C" grade in each semester, prior to application. An official transcript is required.
• Be physically able, as determined by a physician, to safely perform the tasks of a construction electrician. A drug test is required.

• Have evidence of a qualifying grade on an aptitude test prescribed by the EJATT Local Union 134. The aptitude test covers English and Mathematics comprehension along with a spatial ability evaluation.
